

1. Company Overview

XINIX Innovations LLP is an Indian manufacturer of rehabilitation equipment, physiotherapy systems, hospital furniture, and ergonomic healthcare solutions. We design and manufacture products that improve patient care, support healthcare professionals, and enhance rehabilitation outcomes.

Built on over 15 years of manufacturing experience, XINIX combines engineering expertise, modern design, and practical clinical knowledge to develop durable, reliable, and user-friendly healthcare products.

The Evolution of XINIX

XINIX Innovations LLP is the evolution of over 15 years of manufacturing excellence in healthcare and engineering. Established on the strong foundation of Steel Tech Industries, which was founded in 2011, XINIX builds upon a legacy of quality, precision, and reliability in the manufacture of clinical furniture and rehabilitation equipment.

With the partnership of Prajeesh K. S. and Harikrishna Suresh, the company expanded its vision to integrate advanced engineering, modern healthcare technologies, and innovative product development. Today, XINIX combines proven manufacturing expertise with intelligent design to deliver advanced rehabilitation equipment, physiotherapy solutions, hospital furniture, and ergonomic healthcare infrastructure.

This evolution reflects our commitment to continuous innovation while preserving the experience, craftsmanship, and trust built over the years.

Our focus is simple—to deliver quality products that healthcare professionals can trust every day.

Tagline:

Behind Every Recovery

2. Our Story

Every great company begins with a vision.

The journey of XINIX started with years of experience in manufacturing healthcare furniture and rehabilitation equipment. As healthcare continued to evolve, so did our vision.

We recognized the growing need for medical equipment that is not only durable but also innovative, ergonomic, and designed around the needs of patients and healthcare professionals.

This vision led to the formation of XINIX Innovations LLP—a company dedicated to creating modern rehabilitation and healthcare solutions through engineering, innovation, and quality manufacturing.

Today, XINIX continues to build products that combine practical experience with continuous innovation, helping healthcare providers deliver better patient care.

3. Vision

To become a trusted global healthcare technology company by delivering innovative, reliable, and affordable rehabilitation and medical solutions that improve lives.

4. Mission

Our mission is to:

- Design and manufacture high-quality rehabilitation and physiotherapy equipment.
 - Develop innovative healthcare products that improve patient outcomes.
 - Deliver reliable hospital furniture and medical infrastructure.
 - Continuously improve through research, engineering, and customer feedback.
 - Build long-term relationships based on quality, trust, and service.
-

5. Core Values

At XINIX, our values guide every decision we make.

Innovation

We continuously improve our products through research, creativity, and engineering.

Quality

Every product is manufactured with precision and attention to detail.

Reliability

Healthcare professionals depend on our products every day, and we take that responsibility seriously.

Integrity

We believe in honesty, transparency, and ethical business practices.

Customer Focus

We listen to our customers and design products that meet real clinical needs.

Continuous Improvement

Learning and innovation are part of everything we do.

6. Leadership

Prajeesh K. S.

Partner – Operations & Manufacturing

Prajeesh K. S. leads the manufacturing and production operations at XINIX Innovations LLP. With over 15 years of experience in steel fabrication, product manufacturing, and workshop management, he ensures that every product is manufactured with precision, quality, and reliability. His expertise in production planning, material management, and quality control plays a key role in maintaining the company's high manufacturing standards.

Harikrishna Suresh

Partner – Strategy & Business Development

Harikrishna Suresh leads the strategic planning, business development, and overall growth initiatives at XINIX Innovations LLP. With extensive experience in healthcare technology, engineering operations, and enterprise management, he focuses on product development, business strategy, institutional partnerships, regulatory compliance, and expanding the company's presence in domestic and international markets.

7. What We Do

XINIX develops products that support hospitals, rehabilitation centres, physiotherapy clinics, educational institutions, and home healthcare providers.

Our areas of expertise include:

- **Rehabilitation Equipment**
 - **Physiotherapy Equipment**
 - **Hospital Furniture**
 - **Exercise and Therapy Equipment**
 - **Pediatric Rehabilitation Solutions**
 - **Geriatric Care Equipment**
 - **Clinical Examination Furniture**
 - **Medical Trolleys**
 - **Height Adjustable Treatment Couches**
 - **Standing Frames**
 - **Parallel Bars**
 - **Therapy Stairs**
 - **Balance and Mobility Systems**
 - **Custom Healthcare Solutions**
-

8. Our Product Portfolio

Rehabilitation Equipment

We manufacture rehabilitation systems that assist patients recovering from neurological conditions, orthopedic injuries, spinal disorders, and sports injuries.

Our solutions are designed to improve mobility, balance, strength, and independence.

Physiotherapy Equipment

Our physiotherapy range supports modern rehabilitation practices through equipment designed for pain management, movement therapy, strengthening, and functional recovery.

Hospital Furniture

We manufacture durable hospital furniture designed for safety, comfort, hygiene, and long-term performance.

Products include:

- Examination Couches
 - Treatment Tables
 - Height Adjustable Couches
 - Hospital Trolleys
 - Instrument Trolleys
 - Utility Trolleys
 - Patient Seating Solutions
 - Clinical Storage Systems
-

Exercise & Therapy Equipment

Our exercise equipment is designed for rehabilitation, fitness, and clinical therapy.

The range includes:

- Shoulder Wheels
 - Pulley Systems
 - Balance Trainers
 - Parallel Bars
 - Therapy Stairs
 - Exercise Frames
 - Mobility Training Equipment
-

Customized Healthcare Solutions

Every healthcare facility has unique requirements.

XINIX designs and manufactures customized products tailored to hospitals, rehabilitation centres, educational institutions, and government healthcare projects.

9. Research & Innovation

Innovation is at the heart of XINIX.

Our engineering team continuously works to improve product performance, ergonomics, safety, and usability.

Our long-term focus includes:

- Smart Rehabilitation Systems
- AI-assisted Healthcare Solutions

- **IoT-enabled Medical Devices**
- **Digital Rehabilitation Platforms**
- **Advanced Mobility Systems**
- **Intelligent Clinical Equipment**

We believe that innovation should make healthcare more accessible, efficient, and effective.

10. Manufacturing Excellence

Quality begins with manufacturing.

Our facility follows a systematic approach to production that combines skilled workmanship with modern engineering practices.

Our manufacturing strengths include:

- **Precision fabrication**
- **Durable steel construction**
- **Advanced finishing processes**
- **Strict quality inspection**
- **Efficient production planning**
- **Continuous process improvement**

Every product is designed for long-term reliability in demanding healthcare environments.

11. Quality Commitment

Quality is not just an objective—it is our responsibility.

Every product undergoes rigorous inspection throughout the manufacturing process to ensure consistency, safety, and performance.

Our commitment includes:

- **High-quality raw materials**
- **Precision engineering**
- **Durable construction**
- **Functional design**
- **User safety**
- **Reliable after-sales support**

Our goal is to deliver products that healthcare professionals can trust with confidence.

12. Our Customers

We proudly serve a wide range of healthcare organizations, including:

- **Government Hospitals**

- **Private Hospitals**
 - **Medical Colleges**
 - **Physiotherapy Clinics**
 - **Rehabilitation Centres**
 - **Sports Medicine Facilities**
 - **Nursing Colleges**
 - **Educational Institutions**
 - **NGOs**
 - **Home Healthcare Providers**
 - **Healthcare Distributors**
 - **International Partners**
-

13. Why Choose XINIX

Healthcare professionals choose XINIX because we offer:

- **Over 15 years of manufacturing experience**
 - **High-quality engineering**
 - **Durable and reliable products**
 - **Ergonomic and patient-friendly designs**
 - **Custom manufacturing capabilities**
 - **Competitive pricing**
 - **Reliable customer support**
 - **Continuous product innovation**
 - **Strong commitment to quality**
 - **Long-term business partnerships**
-

14. Our Future

At XINIX, we believe healthcare will continue to evolve through innovation and technology.

Our vision is to become a recognized manufacturer of advanced rehabilitation and healthcare solutions by investing in research, product development, and intelligent engineering.

As we grow, we remain committed to our core purpose:

Creating products that improve patient care, support healthcare professionals, and contribute to better recovery outcomes.

Every product we manufacture reflects our commitment to quality, innovation, and trust.

Because every innovation has one purpose—

Behind Every Recovery

Engineering Better Healthcare.

Manufacturing with Precision.

Innovating for Recovery.

Behind Every Recovery.

This version is written in a clean, corporate style suitable for a brochure, website, investor deck, or government tender. It avoids repeatedly referring to your earlier company while still highlighting your manufacturing experience. You can further strengthen it by adding professional photographs of your facility, manufacturing process, products, and leadership, along with sections for certifications, milestones, and notable projects as they become available.
